

c("The synergistic effect is observed by MuSyC model with 73% increase in max effect with both drugs over the most efficacious single drug")

"There is a synergistic potency shift (Fold change: 65.77) induced by hsa-miR-124-3p"

"There is an antagonistic potency shift (Fold change: 0.59) induced by hsa-miR-363-3p")

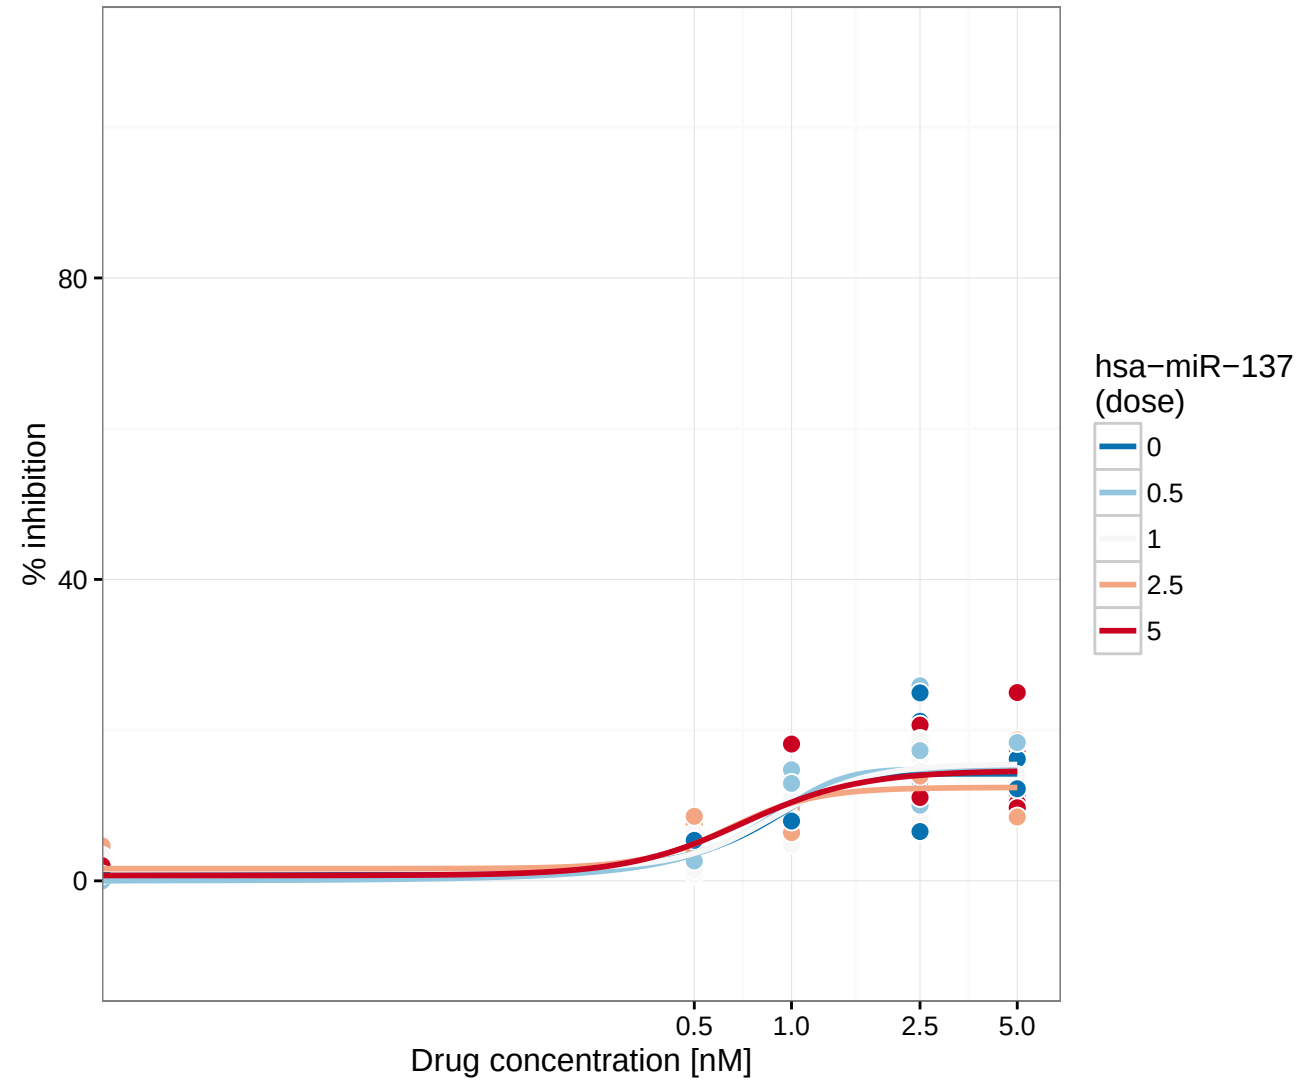

There is a synergistic potency shift (Fold change: 2.12) induced by hsa-miR-34b-5p

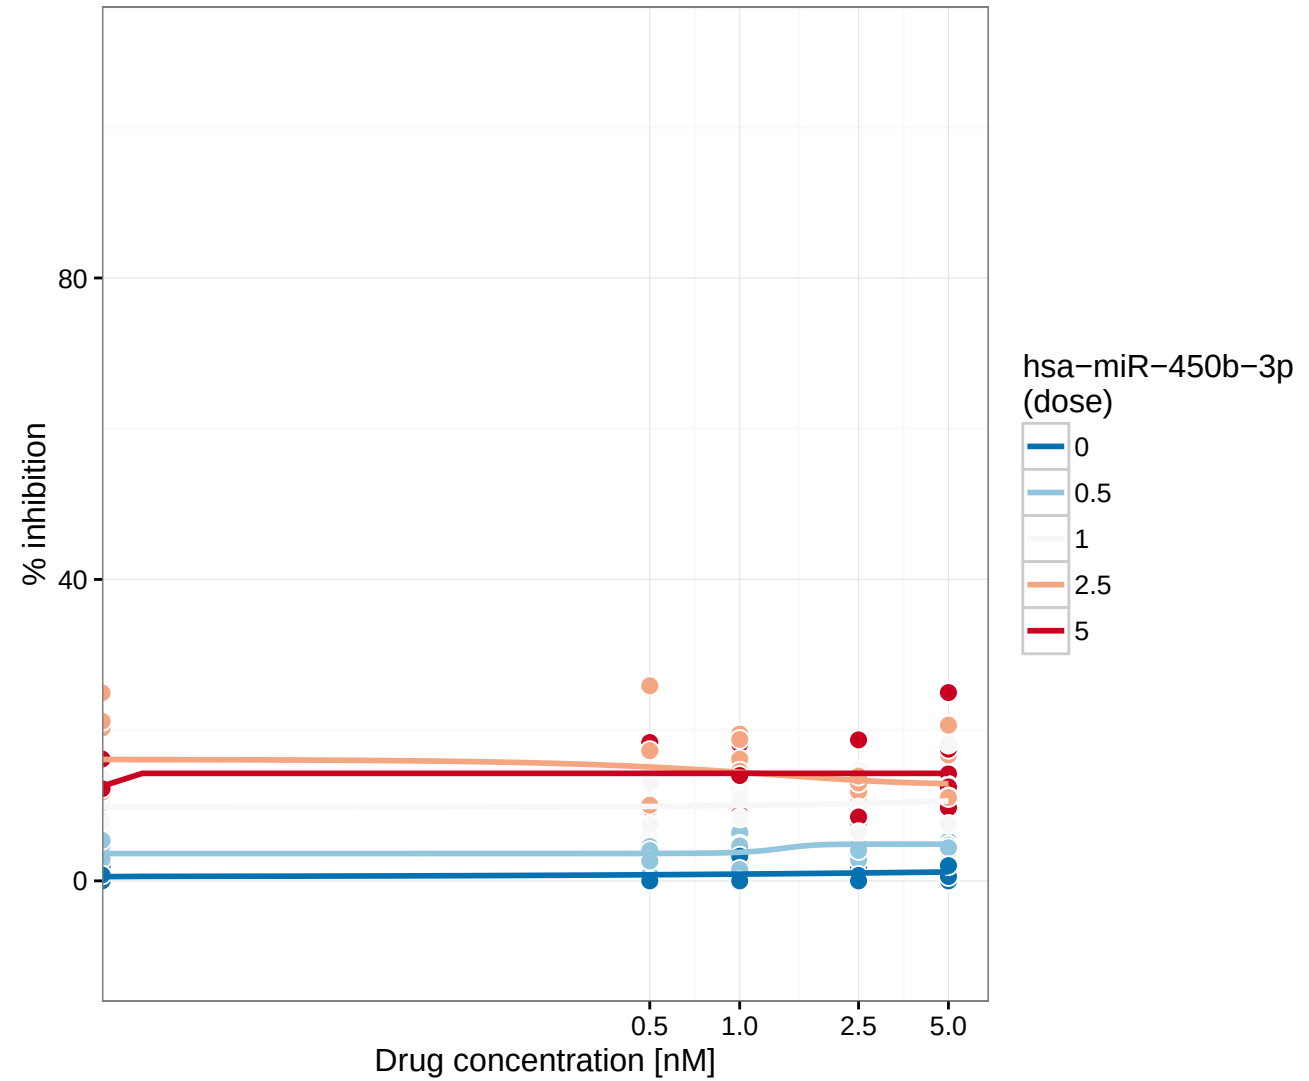

No synergy or antagonism detected with 95 percent confidence interval

hsa-miR-450b-3p

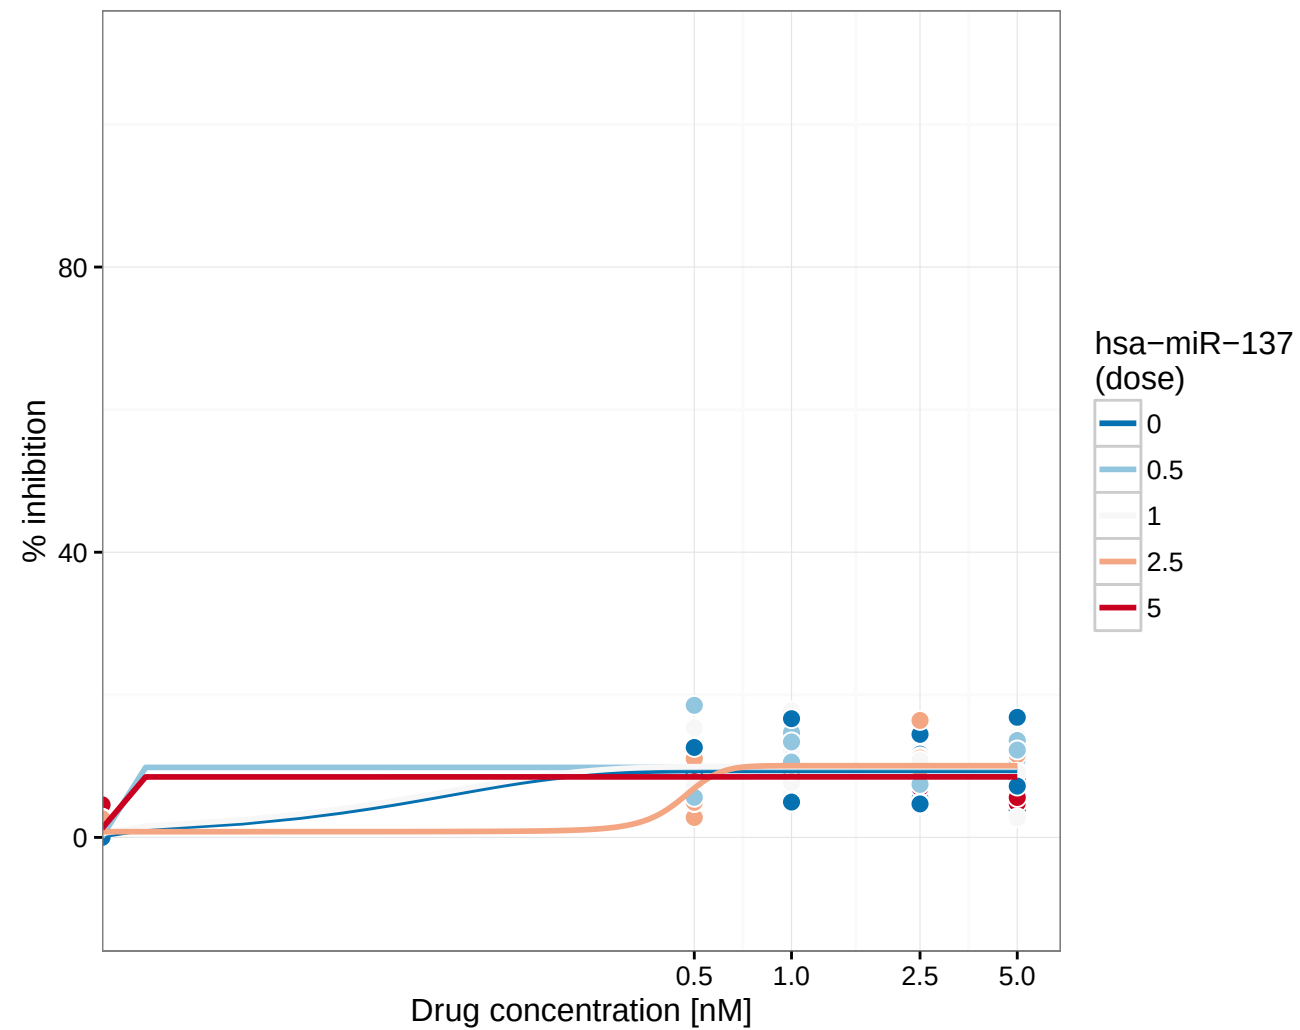

hsa-miR-137

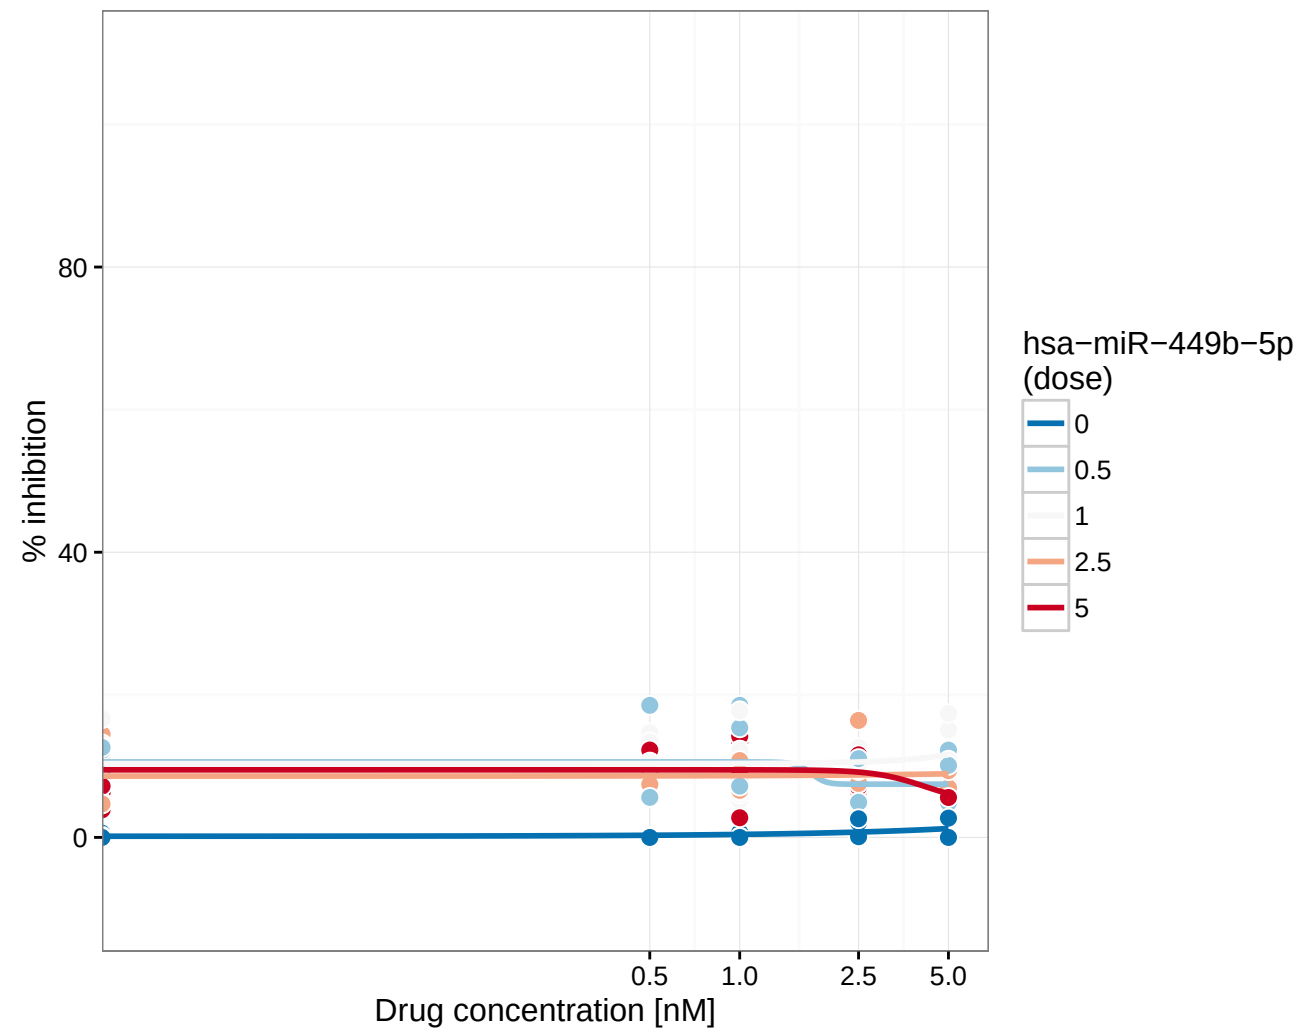

c("The antagonistic effect is observed by MuSyC model with -31% decrease in max effect with both drugs over the most efficacious single drug")

"There is an antagonistic potency shift (Fold change: 0.44) induced by hsa-miR-449b-5p")

hsa-miR-449b-5p

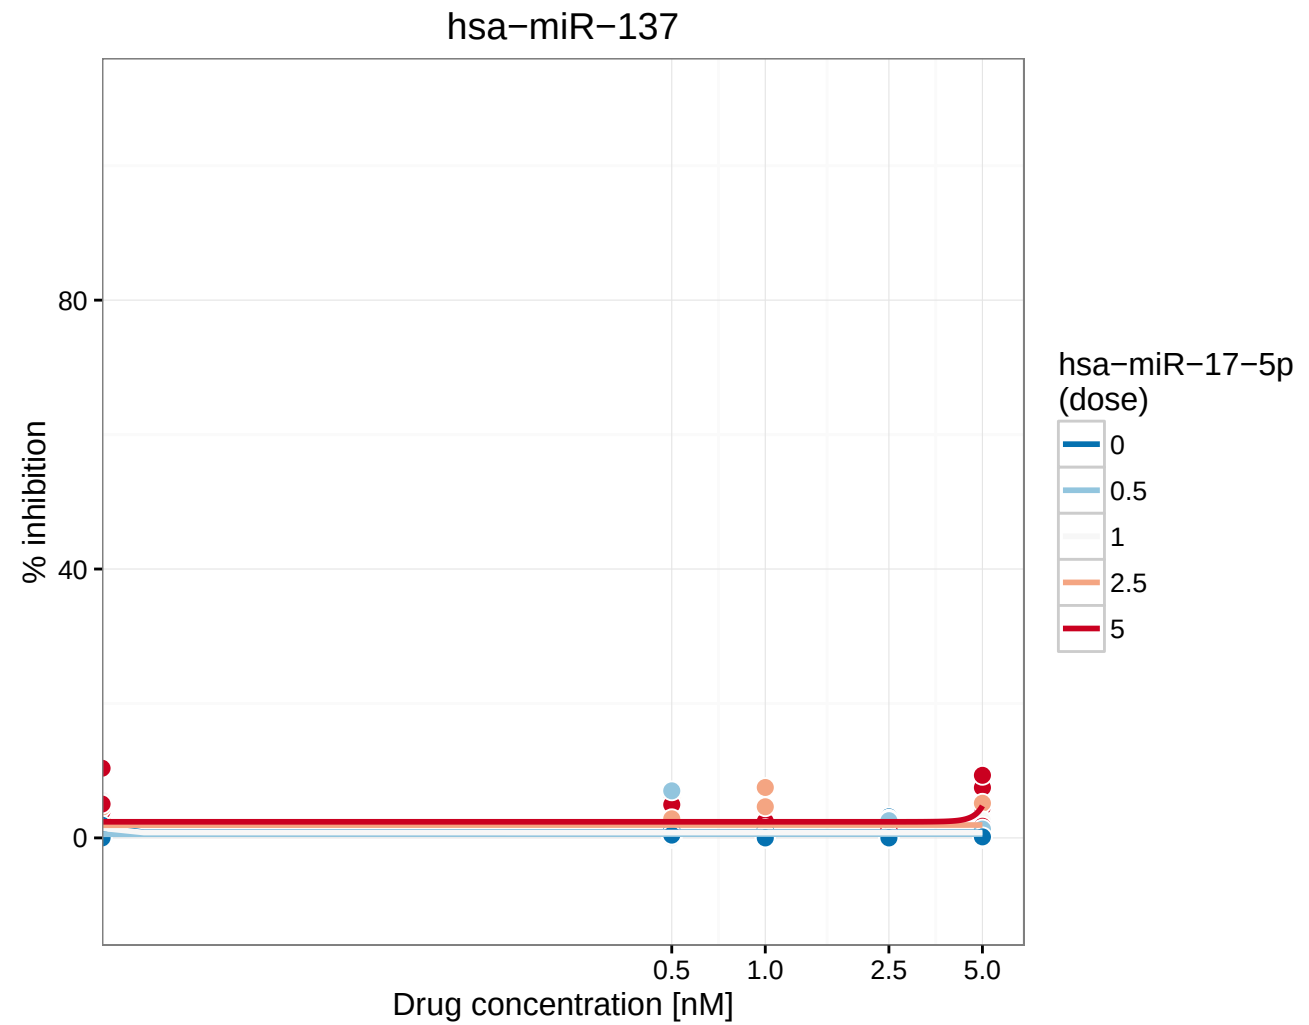

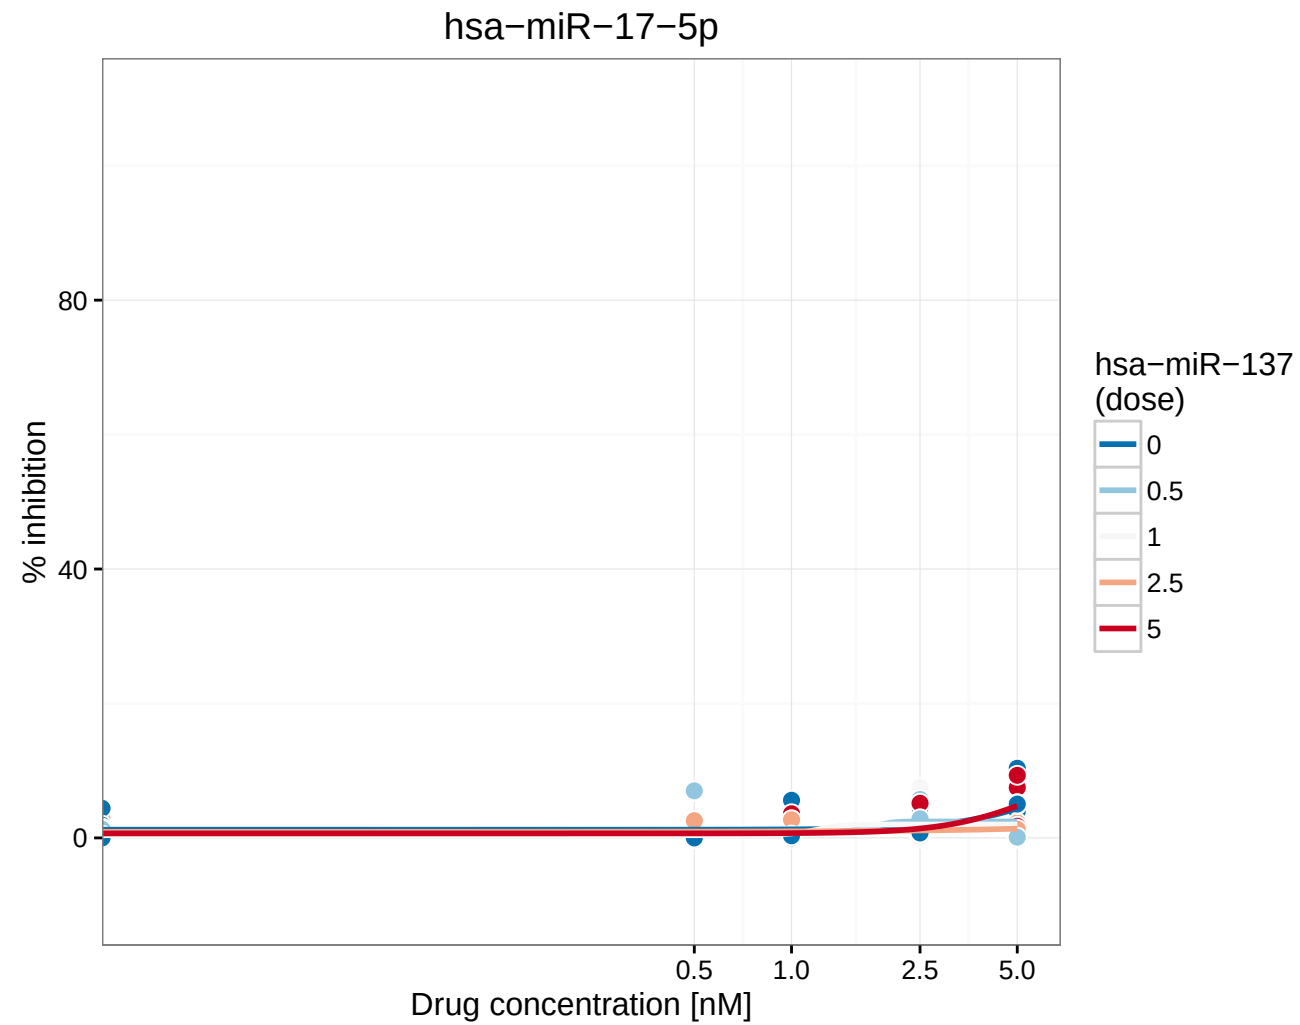

hsa-miR-137

c("The antagonistic effect is observed by MuSyC model with −121% decrease in max effect with both drugs over the most efficacious single drug"

"There is a synergistic potency shift (Fold change: 1.34) induced by hsa-miR-17-5p"

"There is a negative cooperativity (Fold change: 0.00) induced by hsa-miR-17-5p")

The antagonistic effect is observed by MuSyC model with -71% decrease in max effect with both drugs over the most efficacious single drug
